Annual Leave Policy

Document ID: PEO-001
Owner: People Operations
Version: 1
Effective date: 2026-01-01
Audience: All employees

Purpose and scope

Employees need a predictable way to plan time away while keeping team coverage.

Policy

Full-time employees receive 20 paid annual leave days each calendar year. Carry over is limited to five days and those days must be used by 31 March.

Procedure

Submit a request in the people portal at least ten business days before planned leave. The line manager checks coverage and approves or declines within three business days.

Responsibilities and follow-up

The manager checks leave balance and project coverage before approval. People Operations keeps the approved dates in the people portal; an email agreement alone does not change the leave balance.

Example

For a planned week away, the employee checks the balance and submits the dates before booking travel. The manager considers deadlines and confirms the decision in the portal.

Exceptions

For urgent family needs, contact the line manager and People Operations directly; the normal notice period does not apply.
